5. Specific Page Instructions

A. Form Page 5 – Line Quantities

Completion of Form Page 5 is required **only** of companies providing **local voice services** described in 392.245.5(3) or **VoIP service** defined in 386.020(23). Line counts that record **only** VoIP lines are to be filed as non-public information; see Instructions Sections 3 and 4.

- (1) Retail:** Use these columns to report residential and business local voice service or VoIP lines if the end-user’s rates for these services are set by the company filing this report. Do **not** use these columns for any lines that enable another provider to serve end-user customers. Lines include all analog and digital (whether circuit switched or packet switched) exchange lines and single and bi-directional Key/PBX trunk facilities connecting end-users to the Public Switched Telephone Network, or permitting such connections pursuant to 386.020(23). For DS-1 or higher band-width facilities, whether circuit or packet switched, a voice grade equivalency must be used. For channelized service, report the number of channels subscribed to by the customer. For example, a fully configured DS-1 facility is to be counted as 24 voice-grade equivalent lines. For partially equipped DS-1 facilities, count only the number of channels actually subscribed to by the end-user. For non-channelized facilities, filers are instructed to use a good-faith estimate of the number of voice grade equivalent lines used for voice communications.

- (2) **Wholesale to Non-Registered Nomadic VoIP Providers:** Use this column to report Interconnected VoIP lines that enable another provider to serve end-user customers. Do not report lines in this column if they are used to directly serve your company's end users; report such lines in the retail columns. Do not report lines in this column if the other provider is also certificated or registered by the **Commission**.

B. Verification Page - Note: Please read the language in it carefully before completion.

The verification page must be completed in full, including notary seals, if or where applicable. This page must accompany all versions of this report including any highly confidential, proprietary and public versions. An updated verification page is required with any amended or revised submission attesting to the added/revised information.

- (1) **Exact Legal Title or Name of the Respondent:** Company Name as certificated/registered with the Commission, as listed on the cover and the top of the verification sheet.
- (2) **Signature of Affiant:** Signature of authorized company representative named above on the verification page.
- (3) The remaining fields are for completion by the notary including the date, month and year of the notarization, the notary's commission expiration date, notary signature, and placement of the notary stamps or seals, where applicable.
- (4) **Electronic submission:** When submitting the annual report form electronically, complete the verification page in full.
