

Missouri Gas Utility Residential Energy-Efficiency Programs

A Publication Of The Missouri Public Service Commission

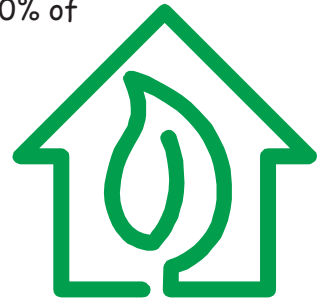

If you receive Missouri Gas Utility (MGU) natural gas service, you may be eligible to participate in a program that promotes the efficient use of natural gas, and lower customers' bills.

Here are the programs that are currently available to MGU natural gas customers:

DEPARTMENT OF ENERGY WEATHERIZATION ASSISTANCE PROGRAM

This program is available to households whose income is less than 150% of the current Federal Poverty Guidelines. Participants in the program will first receive a thorough no-obligation energy analysis of their home or apartment. Using the results of the analysis, cost-effective efficiency measures will be identified and installed by professionals. This is all done at no cost to the household.

To learn more about the Weatherization Assistance Program, contact your local Community Action Agency. If you do not know how to contact your local Community Action Agency, call 2-1-1 for the contact information.

For More Information

Created in 1913, the Missouri Public Service Commission (PSC) regulates investor-owned telecommunications, water and sewer, natural gas and electric utilities. The PSC works to ensure that Missouri citizens receive safe, reliable and reasonably priced utility services. If you have an inquiry, billing question or service-related problem that your utility provider cannot answer, please call the PSC at 1-800-392-4211 or visit our website at www.psc.mo.gov
