Subject: Storm related outages

AmerenUE has activated its Emergency Operations Center in anticipation of more ice in the Cape/Bootheel area. Currently AmerenUE has a little over 5200 customers out - 3300 in the Cape/Bootheel area and 1900 in the St. Louis Metro area. They have called all of their contractors and tree trimmers in and are sending most of them to the Cape area.

At this time, there are no Empire, KCPL and KCPL-GMO customers out.

I will update you as things change.

Lena
