Issue Date: July 5, 2016

Effective Date: July 5, 2016

On July 1, 2016, KCP&L Greater Missouri Operations Company (“GMO”) submitted an application containing its true-up filing for its Fuel Adjustment Clause (“FAC”). GMO requests that the Commission authorize a true-up adjustment and implement it under its FAC tariff. The submitted tariff bears an effective date of September 1, 2016.

Pursuant to Commission Rule 4 CSR 240-20.090(5), the Commission’s Staff shall submit a recommendation regarding the proposed true-up no later than 30 days after its filing. No later than 60 days after receiving the proposed true-up, the Commission must: (1) issue an order deciding the true-up; or (2) suspend the timeline of the true-up to receive additional evidence or hold a hearing, if required. Consequently, the Commission shall issue notice, set an intervention deadline, and direct its Staff to file a recommendation.

Commission Rule 4 CSR 240-3.161(10) provides that parties to the rate case in which the Commission established GMO’s fuel adjustment clause are automatically parties to this tariff case, without the necessity of having to apply for intervention. Therefore, the Commission acknowledges that the parties to File No. ER-2012-0175 are parties to this case, and will direct its Data Center to add those parties to the service list.

1. The Commission's Data Center shall serve a copy of this order upon the parties to File No. ER-2012-0175.

3. The Commission's Data Center shall serve a copy of this order upon the county commission of each county in the GMO service territory.

5. The Commission's Public Policy and Outreach Department shall make notice of this order available to the members of the Missouri General Assembly representing the residents of the GMO service area and to the news media serving the residents of the service territory of GMO.

6. Any person or entity wishing to intervene shall file an application to intervene no later than July 15, 2016.

7. The Staff of the Missouri Public Service Commission shall file a recommendation regarding its examination and analysis of GMO's application no later than August 1, 2016.
